## TO OUR CUSTOMERS

We take pleasure in handing you our little 1934 price list. In doing so we wish to thank all of you for your very kind patronage and for the many kind letters praising the quality of our stock. We wish to assure you that we will continue to send out only high class field grown roots that are absolutely guaranteed to give satisfaction. To those of you who have never favored us with an order we wish to say that fully 75 per cent of our 1933 business was from folks that have purchased from us before. If we can please them year after year, surely we could please you too. Better give us an order. This year we are offering roots only but will grow plants for those of you that make arrangements early. Write for prices mentioning varieties desired

Our terms are cash with order or C. O. D.

Send us some names of persons in your locality whom you think would be interested in our list and we will slip a very desirable extra in your order.

Our prices may not be as cheap as many other cut rate gardens that you may receive literature from. We do not desire to be classed as a cheap concern but we wish to assure you that considering the high class stock sent you and the number and quality of extras included that you will do as well with us as anywhere.

Try us—Be convinced. We refer you as to our integrity to THE FIRST NATIONAL BANK. WELLSTON, OHIO.

Thank you.

H. M. BLAMER, Owner.

P. S.—Our stock has been inspected by an authorized state inspector and we hold Certificate No. 1056. All packages sent out by us carry the yellow inspection label. You need not fear any damaging insects or diseased stock.

We also have many varieties of dahlias that we do not have sufficient stock of them to list herein. If there is something you want, write us. We may have it and if so will be glad to price it to you. Or we will secure any variety for you at the originators price.

### OUR 1934 INTRODUCTION

**Vin-Well Fairy, (I D)** bush 5 feet, bloom 8x4—We offer for this year a profuse blooming pure white informal. On an absolutely straight stiff stem that holds the flower in a correct position and can be cut three feet or more in length. Petals cleft on ends. Better than many highly rated whites. Priced to sell. Roots only ..... \$3.00 NET.
